## Welcome back North Star Navigators!

It's time to activate our brains! There is just a month left until SEPs, let's work hard and make it the best yet!

## Mark your calendars!

Family Science Night is on January 26, 2017. Come eat a bug, build a tower, be amazed by the magical paper and many more exciting activities! The fun begins at 5:00pm! Science Fair projects will be on display, Mad Science will do a show at 6:15pm and drawing for prizes at 7:00pm. Students must be accompanied by an adult and we encourage parents to participate with their children.

## Science Fair Information

It may feel early, but it is time for 4th, 5th and 6th graders to get started on a Science Fair project. Here are some important rules and regulations you should be aware of *before* pulling out the goggles and lab coats.

First, before experimenting, ***you MUST complete a registration form and get prior approval.*** These forms are from the Salt Lake Valley Science and Engineering Fair (SLVSEF), but are required to participate at the school and district level. You can research, outline your procedure and even gather materials, but you cannot begin the experiment until it is approved. This is for the safety of the child and anyone helping them with their project.

- Registration forms are due by 1/13
- Science Night is on 1/26
- Judging is on 1/27
- Projects are due by 1/25

If you have questions or would like the registration forms, please contact Mrs. Lane at [kim.lane@slcschools.org](mailto:kim.lane@slcschools.org).

## Questar goes the extra mile for North Star

Not only do Questar volunteers come to North Star every day to read with our students, they also give our students all kinds of gifts throughout the year. They even gave each student a backpack before Winter Break! Thank you Questar!

01/09/2017
