Our Community Council is an organized group of parents and teachers who meet monthly to discuss the Title I Improvement Plan, as well as the successes and needs of the school.

Do you want to have a voice and help improve your child's school? Do you want to influence and have a vote on how many dollars of School LAND Trust Funds are spent at your child's school? Do you want to know how they are doing and how to improve? At the beginning of each school year parent seats are elected and you are invited to apply at the time of the election. Your student will know that education is important to you when you get involved. You will have input into programs and policies and expenditures at TJHS. You will have a new insight into the education process.

# Data Review

R277-477-4

Parents, teachers and the principal, in collaboration with (the local board) shall review school-wide assessment data annually and use School LAND Trust Program funds in data-driven and evidence-based ways to improve educational outcomes...

# School LAND Trust plan

Implements a component of  
the Teacher and Student  
Success Plan

Including:

Strategies that are *measurable* and show *academic outcomes* with multi-tiered systems of support; and

Counselors and educators working with students and families on *academic and behavioral* issues when a *direct impact on academic achievement can be measured*.

Expenditures are required to have *a direct impact on the instruction of students* in the school's areas of most critical academic need.

# Digital Citizenship and Safety Principles

Best practice is to combine the discussion:

District provides information/report on digital citizenship and school safety

- Is annual student training on digital citizenship adequate, or is there something we should address?
- Do parents have adequate training available to them?
- Discuss what the council can do within their purview to implement safety principle(s) in the school?
- Create and implement a plan.

## Digital Citizenship and Safety Principles

Ask administrators, counselors and school employees – What are your greatest concerns?

- Are current requirements in the law being implemented? Could councils implement or support:
  - School Facility Emergency and Safety *Board Rule R277-400*
  - Suicide Prevention – Parent Education *Utah Code 53G-9-703*
  - Policies for Electronic Devices in Public Schools *Board Rule R277-495-3*
  - School Climate Survey to assess stakeholder perception *Board Rule 53G-8-802*
- How could councils help resolve concerns identified in the report, by school personnel and parents?
